What We Fund

SHSEF supports **smaller class sizes** and a variety of programs in three main areas:

Academic & Arts Enrichment

We support class size reduction and a variety of academic opportunities for all students. This includes STEM classes, tutoring, summer bridge programs, high-level courses, and funding for student and teacher projects. Our ultimate goal is to provide access to rigorous classes for every student. Additionally, SHSEF supplies materials for the Visual and Performing Arts program.

College & Career

SHSEF is dedicated to helping all students achieve their dreams after Sequoia. One of the foundation's major investments funds an additional bilingual guidance counselor who supports students and families through the college and career application process.

Mental Health & Wellness

SHSEF funding provides an additional full-time therapist, extra counseling training, after-school tutoring, and the Family Center. Our counselor offers multiple student workshops on how to reduce anxiety and stress, helping our Sequoia Ravens find balance between academics and personal well-being.

"Sequoia is a special place with so much to offer. I'm amazed by the wide range of programs SHSEF supports to help students thrive." -Sequoia parent

IB Program
The International Baccalaureate (IB) program, a global leader in international education, fosters the development of inquiring, knowledgeable, confident, and caring high school students. Sequoia is the only school in our district to offer this rigorous program. By supporting SHSEF, you enable tutoring, summer bridge programs, new high-level courses, and access to challenging classes for all students.

STEM for All
SHSEF is dedicated to providing all students with access to STEM classes. We achieve this by securing grants for programs like the JAVA programming class, supporting after-school math tutoring, and funding new lab equipment for our science classrooms.
